Remedial Project Manager

Dear Ms. Whittington:

I am writing to let the EPA know that I am still opposed to your proposed clean-up of the Love Landfill. Millions of dollars and jobs are at risk because of this proposal. The Engineering-Science proposal is adequate as far as I am concerned, the capping will keep the waste from moving and the monitoring will keep you aware of any problems in the future. EPA should not choose a plan that could require excavation of the wastes buried at the landfill. In these economically depressed times, people should not be forced to lose their jobs.

Sincerely,

Glen Dean
